

The Everglades News

A GREAT COUNTRY GOV. COX SAYS OF WEST SIDE OF LAKE

Miami Publisher Writes
Two Column Report to
Visit to Brighton

SEES OPPORTUNITY FOR DAIRY FARMS

Pasture Grasses Make
Substantial Basis
For Industry

James M. Cox, former governor of Ohio and Democratic candidate for president of the United States, describes in an article printed Sunday in the *Everglades News*, his impressions of South Florida northwest of Lake Okechobee and the great potential in Everglades drainage district, more than 100 miles of the great empire, the more I am convinced of the deliberate, prearranged plan of the Almighty, Governor Cox writes in the opening paragraph of the article: "Fifty years ago the people of the United States would wonder why it was that two or three generations of people were so slow in recognizing the opportunities of the Florida territory."

His visit was made as the guest of Glenn Curtiss and James H. Bright, of whose Brighton development he says: "Brighton is 16 miles from Okechobee City and 35 miles from Sebring. Dairy men already on the reservation have been allotted eighty acres each. They are given five years in which to purchase the land, which is sold to them at \$120 an acre. No one is considered available unless he has the means to put up his own buildings. The extent of fencing is negligible. There is no clearing of forests and the drainage is a public affair."

"I consider this one of the most constructive pieces of work in Florida. Messrs. Curtiss and Bright are very active in the collection of the personnel of the immigration movement. The great precautions will be taken in the establishment of community life. Already a bank has been chartered, and one can easily foresee what the next 12 months' development will bring forth."

"When the muck land of the Everglades and rich prairie lie side by side, you have an ideal combination for farming. A few years ago James H. Bright, of California, came west over the whole country between the two lakes already mentioned. Mr. Bright knows farming, and he knows the land, and he has lived in Florida long enough to appreciate what is to be had here with intelligently directed effort. His partner, Glenn Curtiss, inventor and aviator, caught the vision of the future, and the enthusiasm of his associate, and 28,000 acres of land were purchased."

A perfect boulevard runs from Lake Okechobee to the property in two. I slept one night in this exquisite tropical scene. The "saw, the hammer, the tractor and the dredge, was appealing. This is not a real estate scheme, and I do not own a dollar of stock in the enterprise. Let the unbeliever be possessed of the view that his eyes are running over propaganda. Let him be assured that this article is prompted by a keen appreciation of the constructive service that Curtiss & Bright are rendering."

Brighton is in the center of the country lying between Lake Okechobee to the southeast and Lake Istokopala to the northwest. Three drainage districts affect this general situation. One, the Lake Istokopala drainage district, runs from that lake to the Kissimmee river to the eastward, a distance of 58 miles. There's a drop of 96 inches to the mile, and the canal has a 125 foot bottom. This will be functioning in 12 months, and is designed to take care of the waters from the lake to prevent any overflows to the south and southeast."

Another canal runs into Lake Okechobee from the region west of Brighton. This is the Indian Prairie sub-drainage district. The main canal is 14 miles long. It is practically completed to the south and southeast."

The third is the Istokopala drainage district. It should be mentioned that about a year and a half ago, W. B. Brown, of the Indian Prairie sub-drainage district, is being crossed with the Black Angus and the native Florida cattle. I saw a

ROAD WORK

Dredges making grade in the Miami canal territory are proceeding on schedule, according to information from that source, and confidence is expressed that cars can drive through from Belle Glade to Fort Myers by the end of the year. Schedule progress is being made by the dredge that is making grade for the Belle Glade-Pahokee road. The Bacom Point grade is finished and is in use. A dragline is within 100 feet of the north line of section 4, on the Peterson & Whidden property. The owners of section 4 may carry a road on ditch bank to West Palm Beach canal and Conners Highway, regardless of the decision as to the route of the Canal Point road.

LESS FROTH TO TALK ABOUT OIL

Boomers Less Exuberant In Reports About a "Gusher" In Palmdale Territory

Claim that an oil well was drilled in two weeks ago by what is called the "Brewster syndicate," operating in northeast Glades county is pretty well abandoned now. The ridiculous exaggeration of the boomers helped to kill the boom they tried to start.

James M. Cox, former governor of Ohio, published in the *Miami News*, does not say a word about oil wells or derricks in a page article about the Palmdale-Brighton road, that he printed in his newspaper Sunday. The whole article is about the road hunting and the agricultural possibilities of the section. The first report about the "well" said Governor Cox believed an oil well had been opened. The Glades County Democrat, which is printed in the county in which the hole in the ground is located, denies to credit the report that it has been found. Harry W. Thompson of Sebring, "coordinator for the Brewster syndicate," spoke at the meeting of the Okechobee Realty Board and the local paper says he talked of "the attitude of his clients in the matter of policy the drillers purposed to pursue, and after hearing Mr. Thompson's address, the board voted to make no decision."

Mr. W. D. Horne and J. E. Cochran opened the packing house at the depot this week and are running a crew. Shipments of the first car probably will be made from that house Wednesday.

Mr. Horne will operate the L. L. Davis house at Pahokee. F. H. Whidden has opened the packing house on section 4 lake front, known as the Conners house, and is packing mixed vegetables, to start on Wednesday.

F. H. Whidden has opened the packing house on section 4 lake front, known as the Conners house, and is packing mixed vegetables, to start on Wednesday.

BELLE GLADE

BELLE GLADE, April 21.—Miss Charlotte Gibson has returned from the Palm Dale-Brighton road, at Okechobee. She will spend her vacation here. Her mother gave a party in her home Tuesday evening at the Belle Glade Hotel.

The regular agricultural meeting sponsored by Mr. Hatt was held at the home of Mr. Hatt on Tuesday evening. Mrs. E. Feuchtinger and Mrs. E. J. left for their home in Chicago last Friday.

The Belle Glade Chamber of Commerce is offering a prize of \$5 for the best article on the subject of the lake. Mr. and Mrs. C. D. Savage and family spent Sunday here on a fishing trip.

TORRY ISLAND

Mr. Brad has completed the painting of the Torry's house and is looking much improved.

Miss N. C. Smith and son have returned from a visit in Hollywood. Mrs. Brad and daughters Esther have returned home from a two weeks visit at the Sea Deer home Sunday.

Visitors at the Sea Deer home Sunday were: Mr. and Mrs. J. D. Lee and children, Mr. and Mrs. W. B. Brown and children and Misses Clara, Irma and Schaeffer. Roy West, Harry Singh and Mrs. G. C. Crotamie were visitors at the Winnie home Sunday afternoon.

Everybody's time is well taken up with the digging of fine potato crops. The digging party is visiting at their Miami home.

E. T. King says he has a job that is digging potatoes. It is a fine thing to get out of the tomatoes. That's hard work for a blind man.

THIRTY FOUR CARS OF BEANS SHIPPED IN PAST NINE DAYS

Chosen and Belle Glade
Furnish Half; East
Beach the Rest

PACKING HOUSES OPEN ON TOMATOES

Cabbage and Potatoes
Shipped in Smaller
Quantities

Twenty-nine car loads of beans were loaded at the Submarine Station of the Florida East Coast railroad from April 15 to April 23, both dates inclusive. Twenty car loads of cabbage went out in the same period. Express shipments made a total of over 3000 packages, equivalent to seven car loads, and were in addition to the twenty-nine cars shipped by freight.

The larger part of the express shipments of beans, of potatoes, 54 crates that have gone forward have been expressed; the number of crates of beans is under 100.

It is estimated that about half of the beans shipped from Canal Point station originate in the Chosen-Belle Glade district and the other half originate in the Chosen-Belle Glade district.

W. D. Horne and J. E. Cochran opened the packing house at the depot this week and are running a crew. Shipments of the first car probably will be made from that house Wednesday.

Mr. Horne will operate the L. L. Davis house at Pahokee. F. H. Whidden has opened the packing house on section 4 lake front, known as the Conners house, and is packing mixed vegetables, to start on Wednesday.

F. H. Whidden has opened the packing house on section 4 lake front, known as the Conners house, and is packing mixed vegetables, to start on Wednesday.

Daily Shipments

Shipments in the past week via F. E. C. from Pahokee-Canal Point were: Thursday, April 12: 1 car beans, 1 car cabbage, 600 express packages. Friday, April 13: 3 cars beans, 315 express packages. Saturday, April 14: 3 cars beans, 1 car cabbage, 354 express packages. Sunday, April 15: no car loads; 1080 express packages.

Monday, April 16: 7 cars beans, 233 express packages. Tuesday, April 17: 7 cars beans, 48 express packages. Wednesday, April 18: 21 car loads; 183 express packages. Thursday, April 19: 21 cars beans, 128 express packages. Friday, April 20: 2 cars beans, 164 express packages.

Cleveland Shipments

South Ray growers shipped the first car of tomatoes from the lake region, a car having rolled from there Thursday of last week.

Heavy shipments are being made from Kramer Island, where condition and yield of all crops is fine.

Carlot Shipments

Reported Monday, April 19: New potatoes: Florida 23, Total new (year 25); last year 2883. Beans: Florida 3; Total this year 712; last year 1482. Tomatoes: Florida 24; Total this year 1099; last year 2916. Peppers: Florida 3; Mexico 6. Total this year 330; last year 421.

Potomac Passings

24-hour period ending 11 a. m. April 20: Tomatoes: To New York 10, Philadelphia 7, Baltimore 6, 1 each to Philadelphia, Erie, Washington and Buffalo; total 27. Peppers: To New York 1. Mixed Vegetables: New York 6, Philadelphia 25.

Tomato Prices

Reported for Tuesday, April 20: Baltimore: Florida 4 cars, 1 received; 26 cars on track. Fancy \$8.60; choice \$56.50. New York: No quotations. Philadelphia: Florida 5 cars; 21 cars on track. Fancy \$667; choice \$56.6. Chicago: No quotations. St. Louis: Florida 2 cars, Mexico 1 car on track. Florida repacked fancy \$68.50; choice \$60.97.

MARKET REPORTS

State Federal Bureau

JACKSONVILLE, April 21.—In the week ending April 20th Florida shipped 83 cars of beans, Texas 68 cars. Philadelphia received 2 straight cars and New York city 82 cars from Potomac Yards.

Prices are holding fairly well. Baltimore beans today: Fair, best, \$30.25. Washington, unsettled and dull; best, \$3 @ \$5. Atlanta, red valentines, \$2.50. Black valentines and refugees, \$1.50. New York city beans: Florida, 12 cars. Total receipts by express from Florida equivalent to three cars; supplies rather liberal, demand moderate, market slightly weaker; Florida 7-8 bushel hampers green best, \$46.45; fair, \$36.35.

PAHOKEE DISTRICT

Not having had notice as to when the annual meeting of taxpayers in Pahokee drainage district would be held, The Everglades News representative in the district has been unable to attend.

The following reply has been received and we have no more information than is here given: "Dear Mr. Sharp: This will acknowledge receipt of your letter of April 16th inquiring about the official notice of the election of Supervisors of the Pahokee Drainage District. We have not been close in touch with the district for some time past, and we do not know what the Board of Supervisors has done with reference to calling the election. We are indeed sorry that we are unable to give you the information you desire. Very truly yours,

"WINTERS & FOSKETT,"
"By Walter Foskett."

PEOPLE WE KNOW

Dr. E. D. Harris, who had been on his Atlantic coast trip, returned to the district last Wednesday for Gulfport, Miss., to reenter the hospital for dissection of the foot.

G. J. Barstow of South Bay came to Canal Point Wednesday to see Guy Shanon and his family. Mr. Barstow is the dealer. He had seen the advertisement of the tractor in The Everglades News.

L. F. Freeman of Cincinnati, Ohio, is spending several weeks in the lake region, looking after his land in section 10 and on Kramer Island.

George F. Bessel, of West Palm Beach, is in the lake region, looking after his land in section 10 and on Kramer Island.

Mr. Bessel, of West Palm Beach, is in the lake region, looking after his land in section 10 and on Kramer Island.

BASE BALL

The East Beach base ball team went to South Bay Sunday and played a game there with a score of 8 to 0 in favor of East Beach. We are indebted to Captain Jack Basser, score-keeper, for the following score:

East Beach: Sims center field; Francis cross second base; Frank O'Connell first base; D. E. Carr left field; Bill Cochran third base; H. Larimore short stop; Dan Griffith right field; Wm. Green catcher; Ed and Lee Mansfield catchers.

South Bay: Ed Forbes pitcher; H. Mitchell first base; G. Alberts catcher; Mitchell left field; Joe Cherry second base; Charles Forbes third base; A. Wells right field; Greer center field; Greer pitcher.

East Beach's runs were made by: Sims 2, Crow 2, O'Connell 1, Carr 1, Larimore 1, Guise 1. The hits were made one each by Sims, Cross, Carr, Larimore and Guise.

For South Bay, Ed Forbes, Mitchell, Alberts, Wells and Greer each got one hit.

INFORMATION

ABOUT THIS NEWSPAPER

Published weekly (each Friday) at Canal Point, Fla.
Subscription: \$2.50 a year; \$1.25 for six months.
Devoted to news and affairs of the Florida Everglades and serving particularly the people in the towns and communities in the Upper Glades and on Lake Okechobee.

Advertisements: Display—45 cents per inch per line. Wanting notices 10 cents per line. Want ads one cent a word. No display ads taken for space or number of insertions that amount to less than \$2. No want ad or reader less than 25 cents.

Job Printing—Letter heads, envelopes, cards, dogtags and all other forms of commercial printing. No printing job taken at a less price than \$2.50.

Politics—Democratic.
Policy—To try to be accurate and fair. Contributions sent to the editor of the paper are desired more than contributions that agree with the editor's views.

Build Dredge Hulls For Gladeview Roads

In preparation for building a total of about thirty miles of lateral roads in Gladeview district, hulls for two dipper dredges are to be built at Jacksonville, each of the dredges to be of a yard and a half capacity and to excavate material for the road grade.

Gladeview district is on the south side of the road from 20-mile bend to Hillsboro canal. It is the site of the operations of the Palm Beach Everglades Farms Company of which A. L. Hathaway is president. Originally a drainage district, it has also been made a special road district.

Several weeks will be required to complete the hulls and install the machinery on them.

Asked About Drainage In Newhall District

PUMP INSTALLED BUT MOTOR
AND GEAR CONNECTIONS
ARE LACKING

Why the power equipment has not been received for Newhall drainage district at Moore Haven is being inquired into by the Moore Haven Luncheon Club. The club has been asked to finance the district but has fallen down on this important matter.

In its current issue, the Glades County Democrat says: "The recent rains have brought forcibly to the attention of the district the town is in with the pumping unit still incomplete. The big Menegus pump, which was ordered several months ago and the pumps around all ready for use. But the pump was to be pulled by a large motor, which required a 100-horse power level gear to connect with the motor."

"Though this need has been known from time the pump was ordered and though the engineer of the district has several times reported motor and gear connections, which required a 100-horse power level gear to connect with the motor."

"The Moore Haven city commission has ordered two weeks ago to get information as to what the Newhall district or the Everglades drainage district was going to do and in the event they were not acting with vigor to get these things ready for use to proceed with the buying and installing of this necessary equipment."

"It was reported that the big engine and pump in station No. 2 of Diston Island district had been given a 'dry' try-out. There was not sufficient water in the lake to run the pump more than ten seconds, and the drag line which was on the way to make operation into the lake and make the drainage canal was somewhat delayed by the breaking of a minor part. However, that part has been secured, and the drill will be moved within a day or two, thus making this plant complete except for the big storage tanks for fuel and the hose to cover the machinery."

Extend Farm Area In Okeelanta District

OKEELANTA, April 22.—The crop outlook for this vicinity is most promising, corn and potatoes, barring overcast, will realize good returns to growers.

During the past week Joe Lockmiller placed eight acres on the Jackson place, three miles west of town, south of the Bollen canal. The land is being tilled by its original owner, Ira Jackson, who will devote the land to poultry raising. Four acres are already planted to corn.

Two shipments of vegetables, 150 pounds each, are made weekly from the Franz ranch to Palm Beach by truck.

LEE COUNTY ROADS

FORT MYERS, April 22.—County Engineer J. A. Long has reported to the Lee county commissioners that work is complete on the Fort Myers-Palm Beach road, part of a system provided for by a county bond issue of \$1,250,000 two years ago. Of other work the status is: State road No. 2, complete May 25; Fort Myers Beach road, June 15; Tamiami Trail in Lee county, November 1; Pine Island road, January 1.

Completion of the Fort Myers-Palm Beach road will allow concentration of men and machinery on the other four projects this virtually assuring that all day in affirming the decision of the circuit court for Lee county in the case of the Wilson Grange Company vs. trustees of the internal improvement fund.

The firm claimed a certain tract of land, allegedly belonging to the state, under a certificate said to have been issued by the commissioner of agriculture in 1890.

NEW REPORT THAT WORK ON R. R. IS TO BE RESUMED

Kershaw Construction
Company Is Told To
Get Ready To Build

BY WAY PAHOKEE TO BELLE GLADE

Contract Let In November
For 14 Miles of
Construction

The Kershaw Construction Company, with headquarters at Birmingham, Ala., has been directed to proceed with the construction of the Florida East Coast Railway Company's (Cochran-Miami) extension. This report came from The Everglades News yesterday and although its source cannot be disclosed it is believed to be authentic. The extension line from Okechobee now terminates one mile south of West Palm Beach canal at the Pahokee-Canal Point station.

The Kershaw Company has equipment on the main line of the F. E. C. railroad, that equipment having been used in the construction of the cut-off line into Bunnell.

Announcement was made in November of last year that contract had been let to the Kershaw Company for the construction of 14 miles of line from Canal Point to Hillsboro canal. C. G. Kershaw, president of the company, came to Canal Point in December and looked over the ground.

Start of work was delayed by inability to get right of way south of Canal Point on terms agreeable to the railway company. The new report that construction is to be resumed implies that right of way in the Pahokee district has been secured.

C. L. Beales of St. Augustine has been made assistant general manager of the F. E. C. and it is understood he will direct operations on the Okechobee-Miami extension under General Manager H. N. Rodenhough.

Construction Engineer Leach is in charge of maintenance of the track in charge between Okechobee and Canal Point.

Dredge Florida Again Works In Lateral B

The yard and a half dipper dredge Florida again is working in lateral B, which extends from the district ditch that extends north from West Palm Beach canal starting about nine miles southeast of Canal Point.

The dredge is owned by The Arundel Corporation and was working in North New River canal last year. The captain of the Florida is Earl Daniels, an old-timer in the Everglades drainage work. Other men on board are: Fred and Roy Busser, all of whom have been on the Florida for several years.

The Florida got into lateral B Monday of last week. It will make a dike that will serve in the plans of Pelican Lake sub-drainage district.

WEST COAST RAIN

TAMPA, April 16.—With precipitation of 1.46 inches recorded in Tampa yesterday excess over normal for the year was brought to 6.73 inches. Thus far this month the precipitation has been 5.76 inches, compared with a rainfall last year in the same period of 1.85, or slightly more than fell in yesterday's downpour.

Precipitation so far this year is 16.41 inches, while last year up to this time the rainfall was 7.40, or less than half this year's volume.

ALL STATE ROADS TO BE MARKED BY SIGNS

TALLAHASSEE, April 16.—Automobiles traveling in Florida will soon find it possible to go from one end of the state to the other without asking questions as to the whereabouts of the road. Dr. F. O. A. Hathaway, chairman of the state road department, by the department, will do the work, he added.

LAND GRANT INVALID

TALLAHASSEE, April 16.—The commissioner of agriculture of Florida has no authority to issue land grant certificates, the state supreme court has decided in affirming the decision of the circuit court for Leon county in the case of the Wilson Grange Company vs. trustees of the internal improvement fund.

The firm claimed a certain tract of land, allegedly belonging to the state, under a certificate said to have been issued by the commissioner of agriculture in 1890.

GRIFFINS' STAMPEDED

THIS PICTURE BELOW THE CROWDS THAT ATTENDED OUR SALE THE FIRST DAY—A PUSHING, PLUNGING, RIOTOUS RUSH OF BARGAIN SEEKERS ON THE OPENING DAY OF SALE. THIS SCENE HAS PROBABLY NEVER BEEN PARALLELED.

Again we want you to know, that the extraordinary bargains during this sale will create a PERFECT FUREOR! Whether it's a blazing day in August or in a January blizzard, the public will respond to a Griffin Close Out Sale. Why, because they know our bargains are GENUINE and the savings GLORIOUS.

Every day until Saturday is going to be a gala day—hundreds of magnificent bargains await the public and lower prices prevail as the sale progresses the Price.

in most instances, so low that they are absolutely ridiculous.

This Is My Reason, Friends, in Cold Type-Griffin

SUGAR

20 Pounds
\$1

This is pure granulated sugar that we are offering at 5c per pound to purchasers of \$5.00 or more to stimulate interest in this sale and to make it clear that I am in earnest in closing out. I am making it worth your while to attend this sale prepared to buy heavily knowing that prices are down lower than before the war. All starts Friday, April 23 at 10 o'clock.

Permit me to state that through sale as brief as possible and everything in the store will be marked down to a figure that will be astonishing to the people when they enter my store, as there will be nothing but red hot bargains here—values that will be an eye opener to the shrewd far sighted people who realize a genuine bargain when they see it.

And I would not think of permitting my name to be signed to this advertisement unless I was telling the true situation just as it is, the few prices quoted in this advertisement are merely a sample of the hundreds of bargains that await you.

THE VALUES HERE DURING THIS CLOSE OUT SALE WILL BLAZE ITS WAY ACROSS THE STATE.

We are going to place our \$22,300 stock in the hands of the people for this reason—Two years ago when I entered the merchandise business I was under the impression that selling clothing, dry goods and shoes was a time of merchandise that I would really like to market. But after two years experience (and I have enjoyed a fairly good trade during this time) I have come to the decision the last thirty days that I should close out my stock.

In order to be successful in anything, as we all know, you must really like the thing you are selling. I can't say I dislike the clothing, shoe and dry goods line but since the time when I was a boy, I have always had an inclination to work a farm. I seem to take great delight in tinkering with trucking and I know I will be a bigger success in the farming line than I will in selling clothing, dry goods and shoes, and that—

Is the chief reason why I am going to retire from the merchandise business. I feel there's a greater opportunity in farming and as I have watched loads of truck go by my store by the hundreds—as I read the newspapers where they are selling for millions—I feel that instead of selling a pair of shoes and making a dollar, I might as well sell a carload of truck and make \$1,000 but—

The principal thing is that I like farming and because of that I have arrived at the conclusion that I am wasting my time in selling clothing, dry goods and shoes.

I want to take this opportunity right now of thanking my good customers for the splendid treatment they have accorded me in buying their merchandise at my store and I am going to show my appreciation during this closing out sale to the people of this section by permitting them to participate in the most unusual bargains of high class goods that they have ever received.

I can obtain a big farm and a good one at that and be in that line of business in a short period of time, so I am not going to waste any time in closing out my \$22,000 stock and I feel and I realize that it's a case of a price appeal with the public.

I don't expect to get cost for my goods although my store is filled to the brim with brand new merchandise. I have really bought my goods from the best wholesale houses in the country—the same wholesalers that are selling merchandise to the best stores in this state and many other states and I have investigated the prices many high class merchants are paying for the same class of goods as I have bought and I find I have purchased just as carefully and used as much pains in the selection of my merchandise as any big store you can visit. Therefore—

My retirement from the clothing, dry goods and shoe business, I have really decided to make this closing out

MONDAY
APRIL 26 at 9 o'clock a. m.
SILK HOSE

10c Pair

To create a little interest in our selling out sale Monday morning, April 26, we will sell to the first 25 ladies in our store a good pair of Silk Hose for 10c. MONDAY, APRIL 26 at 9 o'clock

TUESDAY
APRIL 27 at 9 o'clock

Mystery boxes contain valuable choice merchandise that has been selected from all over the store and will range in value on up to \$9. They will prove an immense bunch of thrills as to get a red or yell or a half dozen pairs of silk hose is a thrill that comes once in a life time especially as we are selecting caps, shoes, silk shirts, 10 strands of \$3 Indestructo pearls and money and wrapping them in boxes and placed on sale at \$1 each. No blanks, so you can't lose.

\$1 Each

PAHOKEE

Pahokee, June 2, 1925.

We want a hard surface road from Canal Point to Bacom Point right away.

A. KALTENBRUNER.

Womans Club

Program of the music department of the Womans Club, Mrs. H. C. Graham, chairman, Monday 19.

Duet, Ruth Simonson and Ruth Roney.
History of A Perfect Day, Miss Verie Mae Tiffin.
Solo—A Perfect Day, Mrs. Kendall.

Piano solo, Miss Ruth Friend.
Solo, Miss Lillian Shive, accompanied by Mrs. Graham and Miss Susan Maxwell.

History of music, Mrs. Shive.
Reading, Mrs. R. J. Crews.

A surprise miscellaneous shower was then announced by Mrs. J. R. York, President, given to Miss Lillian Shive.

Four large baskets containing 66 beautiful and useful gifts were presented to Miss Shive by Dorothy June York and little Miss Tiffin.

Marriage felicitations were read by Mrs. Roney.

Refreshments of cake and punch were served.

Teachers Entertained

The Womans Club entertained the faculties of the Pahokee and Canal Point schools and officers of Canal Point Womans Club Monday evening with a lemon social.

The following program was rendered:
Piano solo, Mrs. H. C. Graham.
Piano duet, Ruth Roney, and Ruth Simonson.

Reading—"Six Feet Under" Dorothy June York.

Lemon contest, games and stunts were enjoyed by all.

Color scheme of yellow and white was carried out in the refreshments of cake and cream.

Mr. and Mrs. C. A. Shive announce the forthcoming marriage of their daughter, Lillian Naomi to Mr. Duncan Padgett on Sunday, April 25. Relatives and members of the young people's classes of the Baptist and Methodist churches will be present.

Mrs. Weldon and little son are visiting her brother, Lennie Stuckey.

A protracted meeting will begin at the Baptist church Sunday, Rev. Spaulman will conduct the services. Every one invited to attend.

Mrs. Oliver, Mrs. Perry and Mrs. Deagan of West Palm Beach were guests of Mrs. Hughes and Mrs. Vann last week.

Miss Sadie Cadman gave a lingerie shower to Miss Lillian Shive Tuesday evening. As each guest arrived, she was given a towel to wear. Music by Mrs. Vann and Miss Fay Belle Lawrence.

Twenty seven dolls and beautiful gifts were brought and presented to Miss Shive by little Mary Weldon and Padgett. Pairs of dressed dolls and dolls were given to each guest and delightful refreshments were served.

A Keat Need

Frenchmen are selling umbrellas that are equipped with radio receiving sets. What is wanted here is an umbrella that will screen when it is pulled up by the wrong party—Los Angeles Times.

Lacks Brain Power

The Massena partridge is known as the "fool quail" because of its failure to sense danger and make an escape from the hunter. It is a bird of the U.S., rather than of the United States, within which it is found only in western Texas, Arizona and New Mexico.

SCHOOL SITE

Deal for the purpose of a site for the new school house at Pahokee was practically completed when the school board visiting East Beach this week, the Palm Beach Post of today says.

Industry's Value

Experts say that the best measure of the importance of an industry from a manufacturing standpoint is the value created by the manufacturing operations carried on within the industry, which is calculated by deducting the cost of materials used from the value of the products. This is called the value added by manufacture.

Crow an Ideal Thief

The crow is an ideal thief. It never hampers its job. Naturalists say that it can carry away the egg of another bird without spilling a drop of the contents. To do this it accomplishes another difficult feat, that of diverting its bill partially through the egg without breaking the shell on the other side.

The Dog and the Egg

A big black retriever, named Pete, belonging to a farmer of East Lake, near Loughborough, England, has shown a partiality for a pellet, while being out for a walk with the rest of the feathered inhabitants of the farm. Every morning the pellet was walked over the dog's back to the end of its kennel and laid an egg. Pete immediately has eaten it, shell and all!

Freshening Oilcloth

New oilcloth that is looking its last may be made to look fresh and to last longer by treating it to a thin coat of glycerine. The oilcloth should be washed thoroughly with a weak solution of a neutral soap, then apply the glycerine with a flannel cloth at night, and it will be hard and dry and ready for use in the morning.

Library of Congress

The Library of Congress, in Washington, which has in its collections some 2,000,000 printed volumes alone, is the largest in the United States. Its largest department is its third largest in the world, crowded by the Bibliotheca Nationalis of Paris, and the British Museum, London. The collection of music in the Library of Congress is the largest in existence.

Keat-Letter Ways

In the early preprintings and similar the calendar days and church festivals were printed in red ink. Now a red-letter day is any holiday or day which we look forward to with pleasure. The majority of calendars still print Sundays and holidays in red letters.

Mr. and Mrs. Bill Stuckey and children are here to attend the Shive and Padgett wedding.

PAHOKEE BAPTIST CHURCH

Sunday school, 10 a. m.

Preaching, 11 a. m. and 7 p. m.

Junior B. Y. P. U., 3 p. m.

Choir practice and prayer meeting, Wednesday night 7:30.

EARL LEWIS, Pastor.

PAHOKEE M. E. CHURCH

Everybody come to Sunday school and church at Pahokee each Sabbath.

Sunday school at 10 a. m.

Preaching at 11 a. m. and 7 p. m.

The school will be conducted by Mrs. Tiffin, Rev. Shive or occasionally an extra.

While you are forming habits, make as well from the church-going habit (over 90 per cent of the criminals of the world never formed this habit).

I, E. G. Kilpatrick, Jr., Cashier of the above-named Bank, do solemnly swear that the above statement is true to the best of my knowledge and belief.

W. H. Lutz, Frank Friend, E. G. Kilpatrick, Jr., 19th day of April, 1925.

Notary Public

M. commission expires Jan. 1, 1929.

COMMUNITY GOSSIP

Boats always are interesting. A locomotive or a passenger coach can be used in a locality for many years, carrying great numbers of persons, but one will be particularly interested in the history of either of them or what becomes of them. Not so with a boat; everyone who has known a boat keeps on being interested in it. There's the Corona, operated for years by the late Captain Cone and his son Percy Cone of Pahokee. The Corona moved oranges on Indian River before it came into West Palm Beach canal and Lake Okechobee. Now it is to go back into Lake Worth. Some men are born with a love for the sea and the water from such men usually are studious and thoughtful men, with a wide range of interest. They have affection for the boats and they communicate interest in boats to others.

A novel contest by the Bank of Canal Point aroused a good deal of interest. It was recollection of the bank's contest that led Olaf Iles, the restaurant man, to put on a little contest, the details of which are stated in his advertisement. He says the editor of this newspaper is not eligible to enter the contest, for a reason that will be clear from a reading of the "ad."

The Chisler Company buses have abandoned Canal Point, although the boat Queen of the Lake receives some passengers at Chisler. The Chisler Company buses brought in passengers Sunday and delivered them to the Queen.

All of the best eating places in Canal Point are doing good business. Canal Point is widely known as having a large reputation of eating places, and they are well spoken of by motorists.

COME SEE THE WOLF

Tell us what kind he is—

Hundreds of people visited our store and viewed the wolf. Many left stories as to what species he was. Contest is open until next Saturday. Remember the best essay as to why this is the biggest sale ever witnessed in Canal Point gets the \$25 award but you must all name the species of wolf in your article.

WANT ADS

Minimum per line, 25 cents.
WANTED—TO RENT—Five or six acres producing muck land with house and farm tackle, would purchase land after cropping. Write and send proposition to—W. T. Tatum, P. O. Box 223, Lake Worth, Florida.

FOR SALE—Twenty acres excellent farm land, east half of southeast quarter of southeast quarter of section 33, township 43, range 37, on border of custard apple, near lake. Will sell at \$25 per acre. Land can be farmed now. Write to owner, care of The Everglades News, Canal Point, Fla.

FOR SALE—1922 Dodge touring car, cheap for cash; three good tires and mechanically O.K. Inquire Canal Point Garage.

FOR SALE—Packing house at Sand Key, near Sand Key, 3 miles north of Canal Point. For price and other information see or address South Bay Growers Association, South Bay, Fla., or C. B. Davis at the lumber yard in Canal Point.

WILL SELL, cleared custard apple land in ditch, dyke and pump area at Chisler. Twenty acres tracts up to one hundred acres at \$25 per acre. Cash balance 1-2-3 years.—P. D. Parker, P. O. Box 360, Tampa, Fla.

FOR SALE—10 acres northwest quarter of northeast quarter of section 34, township 43, range 35 east in Palm Beach county. Send me your best offer. M. L. McCall, 245 Newmarket Ave., Chicago, Ill. 54c

FOR SALE—A good, gentle young Jersey milk cow. See Mrs. Barfield opposite the Pahokee Woman's Club at Pahokee, Fla.

Names Made Historic

The word macadam commemorates John Loudon Macadam, who died in 1836 after doing great work as a road improver in the British Isles. The electrical term volts comes from Volta, the discoverer of static electricity; while the common word macintosh shows how another Scot than Macadam contributed to our comfort by producing a rain-proof coat.

A GREAT COUNTRY GOV. COX SAYS OF WEST SIDE OF LAKE

Continued from first page

Ibrahim bull. His color is about that of the Jersey breed, and he weighed about 1,100 pounds. These crosses result in a very desirable animal, having fine fields in both butter-fat and beef.

The three drainage districts will demonstrate to all Florida the possibilities of getting the water off the land. The Curtis & Bright pioneering movement will establish beyond all doubt that cattle are healthy in Florida and that the soil produces all the requirements for successful dairying.

The grasses here are green and productive 12 months in the year. It seems safe to assert that Florida will be sending milk products as far north as Atlanta and that shipments to this state will come to an end, within a few years.

In selecting the land, Mr. Bright was attracted by the growth of native grass, his theory being that if the land produced in its native state fine grade grasses, it would be ideal for dairy purposes. I reminded him of the experience of old Dan Anthony, father of the present representative from the First Kansas district. When he went into what was then the far west, he purchased lands on which were luxuriant growths of grass and it developed in time that he had the most fertile tracts in the district.

Sufficient experimental work has been done through cooperation of the government to determine the practicability of growing imported grasses. The Para comes from South America. It grows four feet high, is more prolific than the Bermuda, and is even larger than the giant Bermuda. It is perennating and excellent for hay and grazing. The Guatemala grass is a soiling crop. It will last five years, and attain a height of from six to eight feet. It is succulent from root to tip, and its stalks do not have the coarse fiber to be found in sugar-cane or corn. It will produce many tons to the acre. If the rainy season is extensive, it can be cut and fed daily to the cattle. If a cool spell is protracted for days, the grass is not desirable, the Guatemala meets the requirements, Japanese clover is a reeding perennial. It has been used in many parts of the south. With these grasses will be sown the carpet and Populim grasses. The latter, Australian in its origin. It is wonderful for grazing purposes, and grows better in the months of January, February and March than during the summer. The varieties of grasses and the characteristics of these several grasses will give absolute certainty to a year around pasturage for cattle.

"Daymen have been brought from the north—men of family who have made money in this activity. One group came from Deposit, N. Y. I talked with three or four members of the colony. They are fine, upstanding fellows and are not only good farmers but fair mechanics. They are building their own barns. As one of them put it: 'This barn may look to you to be small for 25 head of cattle, but it is not. It must be remembered that we do not have to shelter our cows. We have carefully investigated the whole situation. In the north we procured \$2.10 a hundred for our milk. We will be paid \$3.85 a hundred, delivered at the village of Brighton. We are convinced that there is an opportunity here for pleasant occupation and an adequate return on labor rendered.'

"Under the Bright plan, the milk will be delivered morning and evening, and will be sent in thermos containers to Palm Beach, Miami and east coast towns. Mr. Bright believes that in a year's time he will have 10,000 milking cows, and he believes that the village of Brighton in five years' time will have a population of from 3,000 to 4,000 people."

The article concludes: "I have said nothing about the beauties of the country in question. The hummocks are very picturesque and the palm-trees and palms breaking into the sky create a picture that holds one's imagination. The climate is pleasant the year around. The whole situation seems to meet the requirements of happiness and profitable employment. Central Florida with its canals, will eventually resemble the agricultural scenes in Holland."

Frank Kellow, for 17 years a newspaper man and for 13 years employed on the Fort Myers Press, was elected mayor of Fort Myers by his fellow commissioners. C. P. Staley was re-elected city manager.

CANAL POINT

C. P. Staley, superintendent of the canal testing station, visited his family at the home of Mr. and Mrs. J. H. Fisher, Sunday.

The editor of The Everglades News attended the Florida conference at Palm Beach Friday and Saturday. Both the latter part of last week. He is ready to go ahead with street improvement as soon as the work of the district road is definitely settled.

Captain Oney Briant and Engineer Frank Colson of the boat Palm Drive left Saturday afternoon from Belle Glade, where the Palm now lays over on the Clewiston run.

The White Star bus line between West Palm Beach and Tampa runs a bus each way each day through Canal Point and is being used for local traffic since Arthur Fitzhugh transferred his bus run to Chosen.

Mr. and Mrs. E. H. White of West Palm Beach resided at Canal Point Sunday. They bought a large body of Everglades land several years ago and by frequent visits to all parts of the district kept posted on what is going on. They commented with satisfaction on the present state of affairs in one of the Glades communities which show growth this summer.

Felix A. Fisher, for many years resident on Ritta Island, visited Canal Point Sunday. He said he had bought the boat Corona from the Government and the boat would be moved to West Palm Beach and used in his sand business as soon as the engine and boiler had been taken off it. In addition to his sand business Captain Fisher is also in the automobile business, being president of the Adams Palm Beach Company, distributors of the Auburn car. His office is now at 399 First street, formerly Bayview street.

Dr. J. H. Yoder, district supervisor of tick eradication work, visited Lake Okechobee communities this week in company with Assistant County Agent M. U. Mounts.

Mr. and Mrs. A. Hanson entertained at dinner Tuesday evening Misses Lois Oliver and Eunice Seaward and R. L. Gunn and Louis Goshaly.

Mr. and Mrs. J. H. Fisher entertained with a fish fry Saturday evening of last week at their home on Palokoke road. The fish were fried on an open fire on the lawn and a picnic spread was prepared. Present were: Mr. and Mrs. H. L. Spor, Mr. and Mrs. A. Hanson, Misses Natalie Moore and Marie Seaward of Kelsey City, honor guests; Misses Eunice Seaward, Lois Oliver, Hilda Lee and Misses Henry Kolstad, R. L. Gunn and Louis Goshaly. P. E. Smith of Hollywood was with the group to visit his brother-in-law, E. L. Sessions.

James Parkhill of St. Augustine, here last year as a member of an F. E. C. railway engineering force, is again in Canal Point pursuing the same kind of work.

Miss Thomas Griffith teacher in the Palokoke school, will leave for Fort Myers Saturday, where her husband is engaged in business.

Miss Lois Oliver of Gainesville, Fla., and Miss Eunice Seaward of Whigham, Ga., teachers in the Canal Point school, expect to leave Sunday for their respective homes. Miss Seaward will stop over in Gainesville for a few days' visit.

Captain Andersen, chairman, and members of the county school board, visited Canal Point and Palokoke schools Thursday on invitation of the principals and trustee Ira York. They lunched in Palokoke.

METHODIST EPISCOPAL CHURCH

South Bay Circuit
Rev. Wm. Jesse Thomas, who served Canal Point last year, was sent to South Bay and Belle Glade this year by the St. Johns River Conference which was held at St. Petersburg last week. Mr. Thomas served the churches about seven months last year and is much pleased with the cooperation in the work. The people at both places have been very generous. We are looking forward to a new year in the churches last year the Methodist churches received more members than any other church and are proud that we had even a small part in this growth.

Belle Glade Sunday school, 10 a. m. E. H. Friedman, superintendent.
South Bay Sunday school, 10 a. m. L. Covert, superintendent.
Preaching 8 p. m.
WM. JESSE THOMAS, Pastor.

Letters

Mobile, Ala., April 14, 1926.
Dear Mr. Sharp: It is with interest that I have been reading your paper and am only sorry that I am not a voter in your community so that I could vote for you. Nevertheless, I sincerely hope that you are successful in your race for county commissioner.

I am and will be your most sincere supporter of one of our main jobs, which I sincerely hope that you will want to remember. Sincerely, Nels J. Gonzales of Mobile, Alabama. Yours very truly,
NEL J. GONZALES.

BELLE GLADE METHODIST EPISCOPAL CHURCH

Sunday school, 10 a. m. F. H. Friedman, superintendent. Preaching, 11 a. m. You are cordially invited to join in this splendid work in winning souls to Christ.

WM. JESSE THOMAS, Pastor.

Tembs Lost to Sight

The tomb of Hattusa, famous Egyptian queen, sister and wife of Thutmose II, who lived about 1500 B. C., was discovered by Thibaut in 1817, but seems since then to have been entirely lost sight of.

Virtue in Square Deal

Shipping things over on the other fellow yields but momentary satisfaction. Shortness of this kind always carries with it a feeling that you have invited treatment of the same sort. Only from giving the square deal comes genuine and lasting satisfaction.—Grit.

Early Hospitals

Hospitals were founded in very early times. India, Persia and Arabia had hospitals supported by their kings and rulers before the Christian era. There is good evidence that King Asoka of India in the Third century B. C. commanded the establishment of hospitals and that these hospitals were flourishing in the Seventh century A. D.

A SURPRISE PARTY

A surprise party was given Monday evening at the home of Mr. and Mrs. D. O. Lowe in honor of their daughter Miss Ruby, it being her birthday anniversary. Ice cream and cake were served and games and music were enjoyed. Those present were Mr. and Mrs. Walter Lowe, Mr. and Mrs. Earl Lowe, Billie Lowe, Charley Lowe, Frank Lowe and Mr. and Mrs. H. Norton of New Smyrna.

B. Y. P. U. SOCIAL

A social was given Friday evening at the Baptist church at Palokoke in honor of the senior B. Y. P. U. All present enjoyed playing games and as the evening came to a close punch and cake were served. Those attending were: Mrs. Lewis, Mrs. Harrell, Mrs. Graham and Mrs. Eugene Smith, Irma Tidwell, Janie Harrell, Virgie Thornton, Edna Bell, Sadie Cochran, Henry Brown, Monday from Hollywood to go on a study in this office and by his aid we hope to catch up.

A BUSY WEEK

Printing 6000 double page sale bills for O. P. Griffin this week, in addition to other job work, throws the paper a little late. A third printer is due to arrive Monday from Hollywood to go on a study in this office and by his aid we hope to catch up.

SOUTH BAY VISITORS

S. J. Fisher and son and their families were over from South Bay today to attend the sale at O. P. Griffin's store.

RAILROAD GRADE

Work trains are bringing in sand and putting it on both sides of the F. E. C. railroad grade. It is presumed that this is being done to make the track strong enough to bear the construction trains that are expected to run when work is resumed on the extension under contract.

UNITY METHODIST EPISCOPAL CHURCH

South Bay
Sunday school, 10 a. m. L. Covert, superintendent.
Preaching, 8 p. m. Come be with us in this great work. Let us seek to glorify God, will of God.
WM. JESSE THOMAS, Pastor.

Florida Muck Farms

"America's Ever-Producing Soil"

The men behind this Mammoth Farm Development Possess Vision—The Courage of Conviction, and Ample Financial Resources

What's In A Name ?

Names of National Fame in This Directorate:

An anonymous letter gets scant attention. John Doe's check doesn't mean much at the bank. It's the man behind the name that counts.

Men who have achieved success are careful of their names. The use of them in connection with any enterprise is calculated to attract investors who are willing to accept the association of well-known names with a project as prima facie evidence of its merit.

It is worth much to any enterprise to have the endorsement and financial backing of men whose operations have been so generally successful as to give them a reputation for sound judgment, integrity, and business sagacity.

It is a fact worthy of careful consideration that men of such character, whose names are emblazoned upon the scroll of success, have deemed it worth while to give their financial and moral support to the development of FLORIDA MUCK FARMS.

The following names appear in the official roster of Florida Lake Shore Farms, Inc., a corporation existing under the laws of Florida, for the development of 60,000 acres of muck farms south of Lake Okeechobee.

LEONARD KENNEDY, President,

(Controlling factor in Curtiss Aeroplane Company.)

JAMES B. JEFFRIES, Vice-president and general manager,

(One of the organizers of Miami Shores, secretary and treasurer of that organization.)

FREDERICK F. CAREY, Secretary and treasurer,

(Member of H. T. Carey & Co., one of the oldest brokerage firms in New York.)

DELANCEY NICOLL, JR., Director,

(Attorney for Ford Motor Co.)

DELANCEY NICOLL, SR., Stockholder,

(Former legal advisor to the late Henry M. Flagler.)

WESTMORE WILLCOX, JR., Director,

(Member Dillon-Read & Co., in charge of that firm's Boston office.)

G. M. THOMPSON, Director,

(In charge of real estate investments of Dillon-Read & Co.)

C. F. STONE, Director,

(Capitalist, associated with many important financial affairs.)

A. M. EVERSOLE, Director,

(Capitalist, of Miami and New York.)

Among the stockholders are:

Dillon-Read & Co., New York, investment bankers, who recently bought the Dodge Brothers Motor Co., and the National Cash Register Co., and funded the Florida extensions of the Seaboard Air Line Railroad.

Richard Delafield of New York, for many years president of the National Park Bank, and now chairman of its Board of Directors.

John H. Fulton of New York, president of the National Park Bank.

Fisher & Co., of Detroit, manufacturers of the famous Fisher bodies for automobiles.

E. N. Dickerson, of New York, capitalist and retired attorney.

William Gilmour, of New York, capitalist and insurance broker.

Jackson and Curtis, of New York, capitalists.

Whitney Company of New York, owned by Henry Marsh, head of Marsh & McClellon, probably the largest insurance brokers in the world.

F. B. Keech of New York, capitalist.

J. B. Jeffries, of Miami, chairman-supervisor of the Palm Beach Drainage and Highway District is vice president and general manager of Florida Lake Shore Farms, Inc., the holding corporation, and is president of the Florida Muck Farms, Inc., the selling corporation. For many years Mr. Jeffries has been bending his efforts to make these lands accessible to the farmer by establishing transportation lines, and to make them profitable to the farmer by the construction of a system of works which would give him essential guarantee of convenience and prosperity. These things have been practically accomplished. And for the first time these lands are offered to the small farmer and investor with all reasonable assurances that prosperous rewards will compensate his efforts. This region long has been acclaimed the richest and most productive in this country. Here the elevation is 19 feet and the muck is from 8 to 12 feet deep.

Never before has the purchase of such fertile land so thoroughly protected from flood and drought been placed on the market at the prices and terms which have been adopted for the sale of FLORIDA MUCK FARMS.

LAKE HARBOR townsite is an outstanding feature of this development. It stands at the head of Miami Canal and is accessible from the marketing and shipping points of the Atlantic and Gulf coasts. It is mid-way between West Palm Beach and Fort Myers on the cross state highway. It is located at such a strategic position as to become the marketing and distributing center of this great section.

In a short time the connecting rail links between Clewiston to the west and Pahokee to the east will be built to Lake Harbor, making it a railroad center as well as a business and social center. FLORIDA MUCK FARMS and LAKE HARBOR offer twin opportunities which no one can well afford to overlook.

Let us tell you more about them:
